She shows a well-developed mind & lively response to many forms of interest. Good steady work. Has got wonderfully quickly into our method of working throughout term.

There are many good answers, but some weak places. She does not allow herself to settle down rapidly amongst the other girls & she put the good in school life.

A good little try, but rather short narrations.
Martine has worked well & is making rapid progress.

Rather short sentences but he shows real interest.
Martine has found some of the work a little difficult in his new form. But he is doing better.

The geography shows much intelligence, some other stories are confused though.
Good paper. Martine has worked well this term. The progress is not satisfactory.

A fair paper - narrations are rather short.
Martine must work harder in school. Can do very well.

Not very strong, but good structure.
Martine's work has been better than before. He writes spontaneously - can do very well.

The stars such subject is Nature, then drawings are good. Joan has written very well indeed no ready for remove.

She sometimes narrates very well, with a good use of language. Diagnoses need practice. + not from a set. Joan has got on wonderfully well in her new form, & her progress is most satisfactory. About 1 day.

In most subjects an excellent paper, intelligently narrated. Joan has worked splendidly this term.

Nature study good & there are many good narrations in other subjects. Drawing is good, chiefly in form. Joan has been very good & she takes much pleasure in it.

There are some very good answers, & she has done well, allowing for her absence. Joan has about 3 days during examination week. Has completed 8 subjects. Joan works slowly but conscientiously.

There is excellent intelligent work showing much promise. Joan is steady & satisfactory.

Joan has been very good & she takes much pleasure in it. No. of subjects about 3. No. of subjects about 3. No. of subjects about 3.

On the whole good painstaking work. Carefully written out. She shows her interest. Josephine's attention is too easily attracted from her task & this fairly spoils much of her work today. Absent today.

There are some very good answers, but there are gaps also. On the whole a good steady hand work.

Many excellent answers showing intelligent interest especially in history.

Since Helen settled down, she has worked well & steadily.

Narrations are full & excellent as a rule. I very good paper. Helen has done very satisfactory work & is ready for a remove. She is 2 times.

Her narrations are generally very good & so full to put a strain on her writing. She has made a good paper. Writing too much progress. Late 4 times. Helen has enjoyed her work in her new form. These marks much progress. Late 4 times.

Not very strong - chiefly because on account of her absence. Her writing becomes poor & needs more care. Helen was about 4 days during examination week - has completed 5 subjects only.

Examination held after Easter holidays. Class work perfectly. No. 1 time about 19.

Composition good, but writing in dictation. Her narrations are full & so full to put a strain on her writing. She has made a good paper. Writing too much progress. Late 4 times. Helen has enjoyed her work in her new form. These marks much progress. Late 4 times.

Not very strong - chiefly because on account of her absence. Her writing becomes poor & needs more care. Helen was about 4 days during examination week - has completed 5 subjects only.

Examination held after Easter holidays. Class work perfectly. No. 1 time about 19.

Very fair - she is good writer. Helen is a good steady worker. Very fair - she is good writer. Helen is a good steady worker.

This is good & she shows ability - perhaps not always used to the full? Citizenship & e.g. is not very suitable. History seems to appeal to her most. SPELLING.

Mavis has done some good work, but must give closer attention.

Her prose composition is thoughtful, she shows real interest in history.

Promising work, drawing weak.

Mavis has worked harder this term with Keener interest. Late 3 times.

Often very good indeed, one or two weak places, esp. grammar analysis & diagrams.

Mavis has worked well & steadily throughout the term, & is ready for Form V.

She also has reduced the quality of work, & is in so many subjects she has done the question which asked her to do it. It is not easy to estimate her standard. Mavis was absent for 3 days during examination week - has completed only 4 subjects. Examination held after Easter. Mavis also wrote an essay on poetry, but in other subjects. No. of times absent 0.

Not very strong but there is evidence of a good try. The geometry should not have been used.

Mavis can be strangely unintelligent but has done good steady work this term. J.H.H.

Spelling good, otherwise rather weak throughout, except Pictures & Music. + Not from 2 sets. There has been some improvement in Nora's work this term, but she must work still greater efforts.

Not very strong yet though there are one or two very good answers. Writing needs working at. We are delighted with the improvement in Nora's work. It shows that she has made a big effort.

Many good narrations, showing intelligent interest. Joan is a conscientious worker & is taking more care in all subjects.

Much good work but Arithmetic disappointing. Examiner's report: "There are good answers but many are short & disappointing (especially Nature)". Joan's work has not always been so steady as formerly though some very good work has been done. Will be in U.B. next term. J.H.M. Times about 0.

Generally good & an excellent plan only it wants paving off. Joan always is to well shows keen interest.

Some very good narrations, but her are weak places. Joan's work has been very satisfactory throughout the term.

Endorse of good work - but narration is certainly short. Arithmetic excellent. No. of hours about 2. Joan is interested in everything but could give fuller narrations.

I find little paper. Several narrations very good; intelligent & promising. Joan has worked with a happiness throughout this term & is ready for a new year.

Very good work. Well narrated & full of interest. Joan has kept her lessons so much, & is making rapid progress.

rather weak as a rule, but she has tried. There are some good variations. The most work at the writing. French was not decided upon because this term, though she has all gained, complete. No. 9 much more.

Though the answers do not often travel deep, the ground has been covered
conclusively & with interest. A good paper: Exam: Rep: 2
"Mary's work is satisfactory" J.H.H. Times about 10.

There is much good conversation work & all answers are to the point; but scientific
subjects are disappointing - e.g. Nature. "Exam: Rep: 2" Mary's work is more satisfactory
than some of our examination papers. She takes too long to arrange her thoughts before beginning
to write. "Days to remember" not finished, therefore question not answered. J.H.H. about 10.

After about 3 months nearly always: though she has made good progress in all subjects. Her work is not quite full enough yet. Form - low for age. Cordelia has done quite well for first term. No. of hours about 5. No. of hours about 10. Very fair. No. of hours about 10. Cordelia has improved in writing. No. of hours about 10.

A fair try. but she is hardly equal to the work yet. Cordelia has been well in II but no mention are given. No. of hours about 10.

There is good work (but some answers are very short & weak (esp. History)). Exam. Report "Lois' work is steady. Latin & Mathematics show distinct improvement." J.H.C.M. Times about 0.

Her answers are to the point but very short. Writing gets weak. She has no 70's marked English & German. There are quite a few papers. No. of times about 1.

Very fair. There are good answers well written but some weak places. Especially English Grammar: too rep. Sheila is a very hard worker and has done well her first term at school - English Grammar & Latin read hard with J.H.M.

Rather unequal, often good, especially Nature, but there are weak places. Why is Eng. Gram. so bad? Report: Sheila must learn to write more calmly. Hand's work in Eng. Gram. unfinished & therefore question 3 unanswered. J.H.M. Term absent 20
